#### Event Net Proceeds to benefit Ronald McDonald House New York

Ronald McDonald House New York changing the lives of children and families for over three decades! Ronald McDonald House New York provides temporary housing for pediatric cancer patients and their families. Here families find a strong, supportive and caring environment, which encourages and nurtures the development of child-to-child and parent-to-parent support systems. Every day, children form friendships with other children and, through these bonds, regain a sense of control and experience the fun of childhood. Parents also gain strength and new understanding through the friendships they form with other parents who understand exactly how they feel. Ronald McDonald House New York is one of the largest facilities of its type in the world. The House can accommodate 95 families. The House's location in Manhattan, in close proximity to 16 major cancer treatment centers, draws children and families from across the country and the world, as well as from the metropolitan New York City area. Because we know that cancer can be financially as well as emotionally devastating, Ronald McDonald House asks each family to pay only a nominal fee of \$35 per night.
